

Contractor/Rental LED Barricade Lights 6-Volt and D-Cell Type A/C and B

The C&C Signal "Rental" 6-Volt and D-Cell light is designed to withstand the rigors of the barricade rental industry:

- Special epoxy coating to ensure maximum moisture resistance and circuit life
- Special UV inhibitors and impact modifiers provide unequalled long-term case durability
- Standard three-way switch
- All case colors available
- Bolt options—Standard D-bolt, pyramid or half-moon
- Lens color options—amber, red, blue, green and clear
- Dome color options—amber, red, blue, green and clear
- Optional raised letter case imprint

D-Cell Rental Light Features:

- First light in the industry to use vertically positioned batteries providing for more efficient conductivity
- Approximate operating time: steady-burn mode 6 to 8 months, flashing mode 1-year+
- Proprietary spring tension circuit design ensures positive D-Cell battery contact
- Nickel-coated stainless steel spring clips

The C&C Signal "Contractor" 6-Volt and D-Cell light is the perfect "sale light" for contractors, utilities and local government agencies:

- Available with a yellow case
- Standard three-way switch
- Standard with D-bolt
- Available with amber or red lens

D-Cell Contractor Light Features:

- Approximate operating time: steady-burn mode 3 to 4 months, flashing mode 7 to 8 months

6-Volt Contractor Light Features:

- Approximate operating time: steady-burn mode 3 to 4 months, flashing mode 7 to 8 months
